

WASHINGTON METROPOLITAN AREA TRANSIT COMMISSION

WASHINGTON, DC

ORDER NO. 4082

IN THE MATTER OF:

Served April 9, 1993

Application of MTS-MOULING)
TRANSPORTATION SYSTEMS, INC.,)
for a Certificate of Authority --)
Regular Route Operations.)

Case No. AP-92-30

The above-captioned application was tendered for filing on September 4, 1992. The application was subsequently supplemented and accepted for filing on November 2, 1992. By Order No. 4018, served November 19, 1992, the Commission, among other things, gave notice of the application and established a deadline for the filing of protests. The Prince George's County Government timely protested the application on December 17, 1992. By Order No. 4044, served January 26, 1993, the Commission, among other things, scheduled the application for public hearing on March 4, 1993, and directed the filing of additional documentation. By motion filed February 9, 1993, applicant requested a 60-day extension of time to file the required documents and to prepare for the hearing. The requested extension of time was granted by Order No. 4052, served February 11, 1993, which rescheduled the hearing for May 4, 1993. Order No. 4052 "noted that the extension granted herein should provide more than adequate time for applicant to comply with the Commission's requirements, and no further extension of time is contemplated."

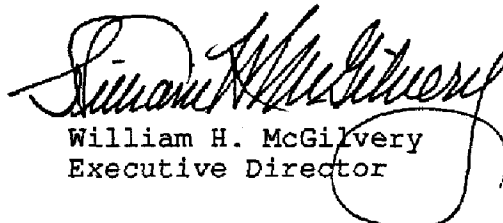

Nevertheless, by letter filed April 8, 1993, applicant has requested a further extension of time. Moreover, the request is open-ended "until such time" as applicant has complied with the requirements of Order No. 4044. Applicant's request does not report what, if any, progress it has made and advances no reason why it is not able to comply with Order No. 4044, other than "additional time is needed."

The required documentation is not so extensive or complicated that it could not be prepared within the time (over five weeks) originally allotted by Order No. 4044. Even so, Order No. 4052 granted applicant's request for an additional two months, admonishing applicant that no further extension was contemplated.

Upon consideration of applicant's request and the record in this case, the request for extension of time filed April 8, 1993, by MTS-Mouling Transportation Systems, Inc., is hereby denied for failure to show good cause.

IT IS SO ORDERED.

FOR THE COMMISSION:

William H. McGilvery
Executive Director
